Over the years, Nicos has shown an admirable quality and effectiveness in organizational skills both locally and internationally. The leaps that the Cyprus Philatelic Society as well as the FIP Maximaphily Commission has made over the past years have been tremendous and it all had to do with his *personal effort, charismatic administrative skills, prudence, common sense, modesty, justice, honesty, sincerity, openness, patience, persistence, willingness to listen, willingness to help, decisiveness in serious and complicated matters and endless activity for further improvement and encouragement.*

Nicos believes in democracy and applies transparency. He generates new ideas and innovations and develops excellent human relations with all kind of partners, shareholders, collaborators and individuals. All these qualities have reflected on all of his work over these years, both in his professional and philatelic life.

Therefore we strongly feel that these skills, principles and values, together with his experience, are the ones that are necessary in order to ensure the smooth running of FIP or any other body we will be part off.
