Secretary report for 2009

I took over function of FEPA secretary after FEPA congress which took place in Essen on 9th May 2009.

My focus in first period has been to establish a smooth and effective system for distribution of communication from the FEPA Board to the member federations. Thanks to everyone who helped me in this matter.

Thanks also to Post of Slovenia and Slovenian Philatelic Association that sponsor the costs for sending ordinary mail – it is possible now without any cost for FEPA to distribute communication from the board to federations both as e-mail and as ordinary mail.

On this first period I distributed press release about new FEPA board and its main goals and three numbers of Newsletters, prepared by FEPA president, Mr. Jørgensen. There were also minutes from three FEPA board meetings (Essen, Rome, Madrid). The third number of FEPA Newsletter contained convocation to the FEPA Congress 2010 in Antwerp so I sent it also by classic (paper) form to postal address.

To keep my address list updated it is extremely important that all member's federations report all changes of e-mail or/and postal addresses to me immediately. On our website fepanews.com/fepafamily you will find the latest update of my contact list.

Bojan Bracic
