No. 16

MESSAGE FROM THE CHAIRMAN

Lars Engelbrecht

Dear friends,

In general, exhibiting of postal stationery continues to develop very positively with more and more exhibits at international exhibitions. At the same time I can see that the quality of the exhibits is getting higher and higher. For instance the title pages and the treatment of the postal stationery exhibits at FIP exhibitions are improving a lot. There is still room for improvement, but the general trend is positive!

And postal stationery exhibits can now also win the big prizes at international exhibitions! You will see that the Leeward Islands postal stationery exhibit won the GPD at China 2016. My warmest congratulations to Darryl Fuller from Australia!

We see many new exhibits and also a number of new postal stationery exhibitors. Again we have the statistics in our database that is updated every year with all results for postal stationery exhibits at international exhibitions. New exhibitor names are added every year, and around half of them have exhibited in other classes before while the other half has never exhibited internationally before in any class.

The last trend I can see very clearly is that exhibitors are becoming more and more critical towards the judging. This is not only in postal stationery – it is the same in the other classes. On websites you can on a regular basis read about how exhibitors experience the judging at the different exhibitions, and where they disagree with the jurors. I am also receiving more emails with complaints over judging than

ever before. And we need to take this very seriously. Many exhibitors are also jurors. We educate the exhibitors better than ever before, and they of course expect the jurors to judge in accordance with the guidelines we are basing the workshops upon. So to me it is obvious that we need to focus a lot more on the quality of judging and education of jurors.

We are now in 2017, and it is time for me to evaluate the previous four years of work in the postal stationery commission.

As you know the postal stationery bureau in 2012 identified six projects as focus for the years 2012-2016:

Project 1: Communication

Project 2: Is this postal stationery?

Project 3: Article Series: Attracting collectors and exhibitors

Project 4: Cooperation with the specialized PS societies

Project 5: Seminars & Presentations

Project 6: Exhibiting leaflet

We are happy say that we have succeeded with all projects and we are very satisfied with the result and response we have had to the projects. Only project three has been delayed and will be finished in 2017.

I would like to thank the bureau members for their hard work in 2012-2016! And a special thank you to Ajeet and Malcolm, who will be leaving the bureau.

I would like to thank Bernie Beston for really excellent cooperation for the past four years, and we are looking forward to working together with our new liaison Reinaldo Macedo.

The election for the bureau in Taipei was easy since there was only one nomination for each vacant position. The elected members of the Postal Stationery Commission bureau 2016-2020 are:

Chairman: Lars Engelbrecht, Denmark
Secretary: Ian McMahon, Australia
FEPA: Mike Smith, UK
FIAP: Chen Yu-An, Chinese Taipei
FIAF: Ross Towle, USA

Besides these five members, the Chairman can appoint two more members, and the following have been invited and have accepted an appointment for the next four years:

Juan Reinoso, Costa Rica
Igor Pirc, Slovenia

Personally I think we have a really, really strong team in our bureau for 2016-202, and I am really looking forward to our work together.
